This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

LETTER OF TRANSMITTAL

HONORABLE NELSON G. KRASCHEL, *Governor of Iowa, and President of the Board of Trustees of the Iowa State Library.*

DEAR GOVERNOR: I have the honor to transmit herewith, the Forty-sixth Biennial Report of the State Librarian, for the biennial period beginning on July 1, 1936, and ending June 30, 1938.

Inasmuch as my predecessor in office, Honorable Johnson Brigham, State Librarian, was incapacitated for a long time prior to his decease on October 8, 1936, and no report for the biennial period beginning July 1, 1934 and ending June 30, 1936 was drafted or filed; I have taken the liberty, in order that the entire life of the Library may be covered by proper reports, with the assistance of the Librarians in charge, who have served under both Mr. Brigham and myself, of compiling a report for the biennial period above mentioned.

Respectfully submitted,

JOHN D. DENISON,

State Librarian.

BOARD OF TRUSTEES

Hon. Nelson G. Kraschel ..... *Governor of Iowa and Ex Officio President*
Hon. Robert E. O'Brian ..... *Secretary of State*
Hon. Agnes Samuelson ..... *Superintendent of Public Instruction*

Hortense Andrews ..... *Economics and Sociology Librarian*
Geraldine Dunham ..... *Assistant*

BIENNIAL REPORT OF THE STATE LIBRARIAN

It seems fitting at the outset of my first biennial report to the Board of Trustees of the State Library, to record the fact that Mr. Johnson Brigham, who became State Librarian in 1898, passed away while still in office, October 8, 1936. His passing ended a splendid career of faithful and competent service to the State of Iowa and its people.

Likewise, I am impelled to call attention to the passing of the Law Librarian, Mr. A. J. Small, on October 13, 1937. His death ended a period of useful and faithful service beginning May 1, 1896, and ending October 13, 1937, covering more than forty-one years.

I.

General Division

The biennial period beginning July 1, 1934 saw a marked decrease in the funds available for the support of the State Library. In this division which shared the general cut, periodical subscriptions were curtailed, and book purchases and binding were limited. The Library remained at a standstill. Beginning with February, 1937 however, a general reorganization of the Library was undertaken. Additional shelves were added in the staff room and shipping room to accommodate much of the duplicate material theretofore stored on the second floor. A complete inventory of the library has been taken. A central depository checking desk, for governmental documents was established. With the help of WPA workers, the books in the library are in process of being cleaned, relabeled and re-arranged. These changes greatly improve the appearance of the library and render the material in it more easily available for the use of the public.

The master catalog, which was badly in need of attention, is being revised and brought up to standard by the cataloger and her assistant with WPA help.

A program of cooperation has been arranged with the Library Commission, for supplemental material out of the State Library, to be loaned for use about the State. In this way a more extended use of the General Library by the people of the state is being developed.

The housing condition of the library has continually become more embarrassing. Practically all the shelves available are filled, and in many sections rows of books have been placed on top of the stacks. This results in a cramped condition and handicaps the staff in rendering service.

Attached to this report and made a part hereof, Table I shows the Accessions to the General Library covering the period from July 1, 1934 to June 30, 1936, and from July 1, 1936 to June 30, 1938. Also, attached hereto and made a part hereof, and marked Table II, is a showing of allotments and expenditures for the same two biennial periods.

II.

Law Division

During his long period of service as law librarian, Mr. Small collected a law library of over 150,000 volumes. However, the use of the library was hindered by the fact that no scientific system of cataloging had been followed. The shelving was as chaotic as the cataloging. Under the present management, changes in the shelving are being carried on, largely through the WPA, and a shelf list is now being made also, by and through the assistance of the WPA.

The condition of the books in the library is not good. Insufficient appropriations have made it impossible to procure the necessary rebinding. Also, an inadequate custodial force, has made proper care of the books an impossibility. So, here the State, with an enormous investment, has property that is decreasing in value with astonishing rapidity. It may be said also, that the condition of the Legislative Reference Bureau resembles in a general way, that of the library proper. Here is a great wealth of material, poorly organized.

During the past two years, in order to make room in the main stacks in the Library, much duplicate material has been transferred to the attic of the Library. This attic is safe and accessible. Something over 15,000 reports of State Courts have been systematically rearranged and put in place. Because of an obvious lack of funds, no steps are being taken to improve the condition of the books.

Many books have been found uncataloged. Great care is now being taken to catalog every book as the same is received. And, in addition, a large number of books heretofore uncataloged, are being gradually cataloged.

Attached hereto in Table III, are shown the accessions to the Law Library for the two biennial periods, hereinbefore mentioned. Attached hereto also, is Table IV, showing salaries and support allotted to the Law Library for the two biennial periods. Table V shows the expenditures.

TABLE III

Accessions

Total	$ 9,428.54	$ 9,841.56

III.

Medical Division

The shelving in the Medical Library was practically filled when the present Medical Librarian took charge in the year of 1929. By 1934, the Medical Library was so crowded that all foreign and state material had to be placed on top of the stacks. By 1937 the tops of the stacks were crowded four rows deep, and with one exception, all reading tables were stacked with journals and the space under the tables filled. Also, the window sills and the sides of the windows were filled with books and journals. The material of the Medical Library was not easily accessible and much of it was deteriorating because of the strong light. In 1937 however, the room formerly occupied by Mr. Brigham's secretary was made available to the Medical Library.

Shelving was placed around the walls and the file cases were placed in this room. This tended to relieve the terribly crowded condition of the Medical Library. Some tables were removed from the alcoves and a large amount of shelving was authorized by the Executive Council, which same was built in the shipping room in the basement. This further relieved the congestion as the State Publications and exchange material could be placed on the shelving in the shipping room.

However, the foreign journals are still corded on top of the stacks four rows deep.

A large number of gifts has been received by the Medical Library from interested physicians and others. Some very valuable exchanges have been made. This has resulted in adding British Publications to the Library, and Medical Journals from Austria. The only cost to us is that of transportation.

Attached hereto and made a part hereof, is Table VI, showing accessions to the Medical Library, for the two biennial periods. Also, Table VII shows the allotments to the Medical Department, and Table VIII, the expenditures. Table IX shows the use aspect of this Library, and Table X is a showing of service rendered.

IV.

Economics and Sociology Division

According to our records, the number of books and periodicals accessioned in 1934-36 was 1,086, and 1936-38, 941, the total number of volumes being 2,027. This Library is in the same condition as the other three. It is crowded as to space. However, as it contained a large amount of duplicate material some gains have been made by a program of re-arrangement and re-shelving on each floor. All duplicates have been gradually discarded and stored in the attic where they are safe. There is great need of repair work on the upper floors of this Library. New floor coverings are needed; the floors should be refinished after thorough cleaning. The floor coverings are unsanitary and unsightly. Approximately one thousand volumes in this Library have been repaired and rebound through the aid of the WPA. The Librarian has encouraged the use of the Library by the students of high schools, colleges and universities in the city, as well as by the general public. The first booklist sent in since 1935 from this Library, was compiled and purchased in 1937. It has also acquired a complete set of Moody's Investors' Service, and has purchased the latest edition of the Encyclopedia Britannica.

Attached hereto and made a part hereof, is Table XI, showing accessions to the Economics and Sociology Division, for the two biennial periods. Also, Table XII shows the allotments to the Economics and Sociology Department, and Table XIII the expenditures.

V.

In midsummer of 1938, I took the responsibility of sponsoring for the State Library, a state wide WPA project, the ultimate purpose of which is to prepare the State for state wide Rural Library Service. It appears in connection with this matter, that more than half the rural population of Iowa does not have library service. A bill was under consideration in the last session of the Congress of the United States, looking toward an appropriation for the benefit of the States, and based upon proportionate rural population. I am advised that this same measure will be offered in the next session of Congress, and it is the opinion of those closely associated with the library world that the measure will have every chance of passing. In such case, I deemed it wise to prepare the State of Iowa for the reception of such an appropriation, should it be made. I there-

fore sponsored this agency. It has been operating for something like three months, and up to this time has had remarkable success in interesting many communities in this State in increased and enlarged library service.

In the event that the measure mentioned is passed and the appropriation received, it can I think, be fairly said that the way for its activities will be well prepared in our State.

I approach the matter of recommendations with some trepidation. I well know that the subject of taxation in Iowa is a delicate one, and that the people are much averse to increased expenditures by the State Government. Also, I believe in economy. I feel that the affairs of the State should be managed with utmost regard for the people who pay the taxes used to support the State Government. On the other hand, cultural values are the real surviving values in any human society. To obtain these in Iowa, the four great libraries, constituting the State Library, are useful and, I think, essential. A perusal of the foregoing report will, I think, demonstrate to any fair minded person, that a great useful and necessary service is being rendered by the State Library, to the people of the commonwealth. We have in the course of years, accumulated books and periodicals containing vast bodies of knowledge in Law, in Literature, in Medicine, in Economics and in every branch of human learning. Physically, we are allowing this material to deteriorate. Moreover, it cannot be made available for the easiest use, because of the crowded condition in which all of the Libraries find themselves.

There are insistent demands for binding and rebinding, in order that journals, periodicals and books may be properly preserved and kept available for further use. Some subscriptions have been cut off because of financial retrenchment, and many essential additions are not being purchased because of the lack of money.

The salaries of everyone connected with the Libraries are low. A comparison, I think, with the salaries paid to any other State Library Staff, will show that the staffs of these four libraries are not adequately paid. Moreover, the Medical Library and the Law Library are both, in my opinion, understaffed. They should have additional help. During the past two years, I have added one employee (messenger) to the Medical Department. The allotments

for all departments are below what they should be. I do not want to urge increased appropriations, but I do want to call to the attention of those responsible for the maintenance of these Libraries to the conditions as they actually exist and as they have existed for some years, to the end that painstaking, intelligent and fair consideration may be had for the pressing problems of the Libraries.

In closing I desire to register my appreciation of the fine co-operation that I have had in the last two years from all the staffs of the four libraries. A high percentage of these workers, who were here when I came in, have been retained. Some of them have been promoted. All have exhibited a degree of loyalty to the State and the Library, meriting the highest commendation. For comparative little recompense, they are rendering a great service and they deserve the cordial appreciation of the people of the State and those connected with the State Government.

In my capacity as State Librarian, I also find myself a member of the Traveling Library Commission, of which I am serving as chairman. When the report of the Executive Secretary of the Traveling Library is available, I hope that it will have consideration in connection with the recommendation that I now make, to-wit:

The the General Division of the State Library should, if possible, and I think it is possible, be put in closer contact with the Traveling Library to the end that the material in the General Library, through the Traveling Library may be made available for circulation in the State, under proper limitations and control by the State Librarian.

Respectfully submitted,

JOHN D. DENISON,

State Librarian.

BIENNIAL REPORT OF THE STATE LIBRARIAN

It becomes my duty, again, to call the attention of the President of the State Library Board, Governor Herring, and through the Governor the next General Assembly to the overcrowded condition of all four departments of the State Library, namely: The General Library, the Law Library, the Medical Department and the Department of Economics and Sociology.

The housing condition is still more embarrassing than it was two years ago. Hundreds of valuable books and bound periodicals in the several departments are piled upon library tables, preventing the use of the tables for research work; and hundreds more are placed upon the tops of shelves and are in piles on the floor. These are not classifiable for reference work, and are not readily accessible for research work. This deplorable condition in a measure defeats the main purpose for which the State Library is sustained,—namely, to serve the people of the State, facilitating the serious purpose of physicians and surgeons, lawyers and legislators and scholars and students, and research workers individually, and those detailed by clubs and forums for special work along prescribed lines.

I. I feel compelled by the cramped condition of each of the four departments of the State Library to renew my appeal to the ex-Officio President of my Board, the Governor of the State—and the incoming General Assembly, that the too-long delayed plan of a building to be occupied by the Supreme Court of the State and the State Library be utilized—that a suitable appropriation be made for the erection of the building as originally planned. In view of the present era of unemployment of labor, it would seem that the near future will be an extremely opportune time to carry out the purpose of the Thirty-eighth General Assembly, utilizing the carefully considered plan approved by that General Assembly—a plan which when carried out will be not only a valuable asset to the state but also an artistically beautiful companion-piece to the State Capitol and the Historical Building.

II. This biennium saw a great reduction in expenditures for the year ending June 30, 1934, which was necessitated by the last General Assembly's reduction in the amount appropriated for maintenance and salaries. Consequently, with the greatly reduced appropriation, fewer books have been purchased, many valu-

able periodical subscriptions have been cancelled, and less binding has been done. I regret very much that we cannot keep up with the binding, as periodical numbers not bound are apt to become lost; and are more or less damaged in reference work when not bound. It is my purpose, when submitting my Budget report, to ask the Governor and the State Comptroller, to recommend to the incoming General Assembly the same appropriation which the State Library had received prior to the action of the Forty-fifth General Assembly.

III. Coming down to the few statistics which complete my report, I would call your attention to the normal growth of the State Library since the year 1898—when I became its responsible head. There were then 57,501 volumes in the two departments of the library. Since then two departments have been added, and on June 30, 1934, there was of record in the four departments a total of 234,518 volumes.

To report in detail, I will add that the total number of additions to the four departments—by gift and purchase—during the biennial period ending June 30, 1934, is..... 8,178

These additions apportioned to the four departments are as follows:

To the General Library	2,818
To the Law and Legislative Department	1,955
To the Medical Department	2,288
To the Department of Economics and Sociology.....	1,117

The library's accountant has prepared a report for the biennium, setting forth by each year the classified expenditures for that year, thus better enabling the reader to note the reduced expenditures. I would especially call your attention to the reduction in books purchased, periodicals and binding totals for the year ending June 30, 1934. The totals of these three essential divisions of library expenditures, as compared with those of the previous year of the biennium, show clearly the effects of the reduced maintenance fund.

Respectfully submitted,

JOHNSON BRIGHAM,

State Librarian.

FINANCIAL STATEMENT

Showing classified expenditures of the State Library by departments for each year of the biennium, beginning July 1, 1932, and ending June 30, 1934.

BIENNIAL REPORT OF STATE LIBRARIAN

It becomes my duty again to call the attention of the President of the State Library Board, Governor Turner,—and, through the Governor, to the General Assembly,—to the overcrowded condition of all four departments of the State Library. Hundreds, yes thousands, of books in these several departments are temporarily ranged upon tables. These should be accessible to research-workers; and many more books are on the floor, and thus not classifiable for ready reference.

The indefinite postponement of an additional appropriation for the State Judicial Building, the plans for which included first-floor accommodations for the General Library, the Law Library, the Medical Library and the Economics and Sociology section of the General Library, was a severe set-back for the library interests of the State.

It is to hoped that the Governor, ex-officio President of the Library Board, aware of the necessities of the State Library and of the convenience and dignity of the Supreme Court of the State, may recommend to the incoming General Assembly the utilization of the plans for the building—which were drawn and modeled at a cost of several thousand dollars,—by the erection of the building to which the State is committed.

The necessities of the case, coupled with the desirability of helping to tide over the present era of unemployment, would seem to make it the duty of the General Assembly to utilize a portion of the contemplated vast saving in appropriations for this too long postponed improvement.

In my 1930 report, I briefly chronicled the growth of the State Library since 1898, when my first term of service commenced, showing a total increase in the number of volumes from 57,501 to 215,353,—a total increase of 157,852. I also referred to the expansion and greater usefulness of the Law and General Departments, and the valuable addition, by legislative enactment, of the Medical Department and that of the Economics and Sociology. The four departments are splendidly serving the State and its citizens; and I am sure no legislator would see their growth and usefulness retarded. The Iowa State Library now ranks among the first half-dozen State Libraries in the nation; and it cannot afford to stand still or fall behind the libraries in sister states.

The last General Assembly reduced the appropriation for the General Library, from $6,000 to $5,500; the Medical Department, from $2,500 to $2,000 and the Economics and Sociology Department, from $2,000 to $1,500. Perhaps it is too much to expect that the incoming legislature will restore the original appropriations to these departments; but, it is most sincerely hoped for the future of the State Library that no further reductions will be made.

Summarizing the physical condition of the four departments which together constitute the Iowa State Library, the total number of books of record, as per inventory in the several departments, on June 30, 1930, was.....215,353

The total number of additions to the several departments during the biennial period ending June 30, 1932, was..... 10,987

These additions make a grand total of books of record in the library, June 30, 1932 226,340

These additions were apportioned to the four departments as follows:

To the General Library	3,665
To the Law and Legislative Department.....	2,533
To the Medical Department	2,812
To the department of Economics and Sociology	1,977

Following is a statement of the classified expenditures of the four departments of the State Library covering the biennial period ending June 30, 1932.

Respectfully submitted,

JOHNSON BRIGHAM,

State Librarian.

Theodore S. Parvin,

Iowa's Pioneer Librarian.

[From a paper contributed by the State Librarian to the Library Commission Bulletin, of October, 1901.]

The death of Theodore S. Parvin, July 28, 1901, removed from active life one who for more than sixty years had served the public with rare ability and fidelity. In the history of Iowa as territory and state no other name will be found associated with such a wide range of honorable public service

Before taking up the story of his life-work as librarian, let me simply name the more important positions of trust filled by this remarkable man. The list, standing alone, is an eloquent tribute to his worth and usefulness. At 21, private secretary to Governor Lucas; at 22, both private secretary to the governor and territorial librarian; at 23, district prosecuting attorney; at 24, secretary of the legislative council; at 25, probate judge, holding the office three terms; at 29, clerk of the United States district court, holding the office ten years; at 39, register of the State Land Office; at 42, a trustee of the State University; at 43, a professor of natural science in the university; at 52, transferred to the chair of history—all the while he was professor at the university, acting as librarian and as curator of the cabinet of natural history. From the age of 52, until the time of his death, he was grand secretary of the Grand Lodge of Iowa Masons, and much of the time grand recorder of the Grand Encampment Knights Templar of the United States. From the age of 27, until his death, he was librarian and curator of the Iowa Masonic Library, of which he was the inspiration and founder. All this time, but more especially from his withdrawal from politics in 1860, to the date of his last illness, he was an indefatigable collector, as the Masonic Library at Cedar Rapids, the museum of the State Historical Society at Iowa City and the museum of the Iowa Historical Department at Des Moines in many and various ways attest.

But it is of Theodore S. Parvin, the librarian, that I would speak at this time. His career revives one's faith in divine calls to public service. It is related that while in Cincinnati, purchasing law books with a view to the practice of law in Ohio, he chanced—or was he impelled?— to meet, at the home of a mutual friend, one Robert Lucas, who had just been appointed governor of the new territory of Iowa. He so favorably impressed the governor that he was then and there tendered the position of private secretary. He promptly accepted the offer as a call to service, and in the year 1838, at the age of 21, entered upon his Iowa career.

A graduate of Woodward College and of the Cincinnati Law School, young Parvin was in all probability the best educated and best read man at the territorial capital. Through his influence Governor Lucas recommended a congressional appropriation of five thousand dollars—a princely sum in those days—for the founding of a territorial library. The appropriation passed, and nothing was more natural than that the bookish young secretary of Governor Lucas should have been made territorial librarian. Armed with a letter of credit for five thousand dollars he made the then long journey to Cincinnati, and there, by his careful selections, proceeded to lay broad and deep the literary foundations of the State Library of Iowa.

Most of the volumes accessioned by Mr. Parvin in '38 are still in use at the state library, mute evidences of the wisdom, knowledge and discretion of the first, in fact the only, public book-buyer in the territory of Iowa.

From 1839 to 1860, the most strenuous years of his life, his books were chiefly men and his activities were mainly confined to the office, the court room and the stump. But from 1860 down to the close of his century his life was close to books and libraries, and his organizing mind went out, with all the enthusiasm which moved the soul of the young book-lover in the thirties, toward the founding and upbuilding of libraries.

The eminently successful library work done by him in his later years at Iowa City and Cedar Rapids, with the resultful pioneer labors of his young manhood in Burlington, together make a record of usefulness which of itself places every citizen of Iowa and every Iowa librarian in his debt.

Librarian's Report.

OFFICE OF THE STATE LIBRARIAN,
DES MOINES, June 30, 1901.

To the Hon. Leslie M. Shaw, Governor of Iowa:

SIR—I have the honor to submit for your consideration the Twenty-eighth Biennial Report of the Iowa State Library, covering the period from July 1, 1899, to June 30, 1901, inclusive.

At the close of the last preceding biennial period there were 65,093 volumes in the library—3,650 of which belonged to the traveling library department, and 61,443 to the State Library proper.

Books Added Since Last Report.

To this number have been added during the biennial period now closed 10,632 volumes, as follows:

Miscellaneous department, acquired by purchase	4,502	
Miscellaneous department, acquired by exchange and gift	2,129—	6,631
Law department, acquired by purchase	1,291	
Law department, acquired by exchange and gift	516—	1,807
Traveling library department, acquired by purchase	2,125	
Traveling library department, acquired by exchange and gift	69—	2,194
Total		10,632
These, added to the number of books in the State Library two years ago, make a total of		75,725
But of this number 4,115 have been transferred to the Historical Department, reducing the total of books in the State Library proper to		71,610
The books so transferred added to the number of volumes reported by the Curator of the Historical Department (namely 9,707), swell the total of the books in the department to		13,822
The grand total of books in the miscellaneous, law, traveling library and historical departments of the State Library is therefore		89,547

The transfer of books from the miscellaneous department to the historical department, above referred to, was made by order

of the Library Board in execution—so far as was found to be practicable—of chapter 114, Laws of the Twenty-eighth General Assembly, "An act consolidating the miscellaneous portion of the State Library with the Historical Department." By this act the State Librarian was given "general charge of the Historical Department and of the consolidated and law libraries." The "Curator of the Museum and Art Gallery" was given "charge of the museum, the Art Gallery, the newspapers and historical periodicals" and the "assistant to librarian" was placed in "charge of the law library, under the direction of the State Librarian."

The most important change made in the legal status of the State Library, and the actual status as well, since my last report, is this act of consolidation.

Purposes Served by the Consolidation.

The general purpose of the framers of the law was declared to be to place these library interests of the State which center at the State Capital, in line with the spirit of the time, and with the best interests of the State, uniting them under one board management and under one general superintendency. The immediate incentives to the passage of this law were as follows:

1. The rapid growth of the miscellaneous department of the State Library and the consequent encroachments of that department on space required for the equally rapid expansion of the law, document and traveling library departments.

2. The almost unavoidable duplication of the books—especially in the historical department and the historical section of the miscellaneous library—and the consequent desirability of placing the purchasing, classifying and cataloguing under one general head—both as a matter of economy and for convenience as well

3. As a preparatory step toward the fulfillment of Curator Aldrich's plan and purpose, namely: the completion of the Historical Building, the west wing of which is now occupied by the historical department, the east wing of the completed building to be devoted to the uses of the Library, the main, or central portion to be used principally as an auditorium and for the further extension of the Art Gallery, and for the creation of a hall of archives, leaving the entire west wing, as it is now in part, for the uses of the Museum, the Art Gallery and the files of Iowa and general newspapers.

More Room Necessary to Complete the Transfer of Books.

So far as has been found to be practicable, the consolidation directed by the last General Assembly has already been carried into effect. After a personal inspection of the west wing of the new building, the members of the Library Board became satisfied, that the consolidation ordered by the last General Assembly could not be fully carried out until the completion of the Historical Building, and consequently, at a meeting held on the 6th of February, 1901, the Board, exercising its judgment as directed by the law, instructed the State Librarian and the Curator of the Historical Museum, etc., "to remove from the State Library proper to the Historical Building the following books, periodicals and papers to-wit:

"All genealogical works.
"All historical and kindred publications.
"All state histories.
"All books known as 'the Iowa Collection.'
"All books and documents relating to the Civil War.
"The sheep-bound set of public documents."

To have gone further before the completion of the building would have compelled a division of the Library force and would have seriously inconvenienced the Curator of the historical department and weakened the State Library proper.

The Librarian was directed to retain at the State Library proper, for use in the State Library or in the special loan branch of the traveling library department, all duplicates of works found in the Library of the historical department.

This instruction has been carried out, and I have to report that the estimate of the members of the Board as to shelf room in the new building, has been found to be correct, for an inspection of the historical department after the transfer of the books above named reveals the fact that, with the books, pamphlets and newspaper files already accumulated in the historical department, (9,707 as reported by the Curator) and the books transferred from the State Library (4,115), there remains insufficient space on the shelves to warrant a further transfer of books from the State Library to the Historical Building; in fact, the large accessions continually being made to the Library of the historical department, chiefly in supplying that department with complete sets of the historical collections of the several states, and in adding to the department's collection of state, county and town histories,

and genealogy, point with certainty to the early necessity for more shelf room for the uses of that department and to the unwisdom of transferring any more books from the State Library to that department until the building is completed. These conditions are augmented by the present lack of space in the newspaper stack room for the fast growing library of Iowa publications.

Supreme Necessity of Completing the Historical Building.

This condition with which we are confronted emphasizes the supreme necessity of speedily completing the Historical Building, that the miscellaneous portion of the State Library, now temporarily occupying space needed by, and by law accorded to, the law, document and traveling library departments, may be wholly removed to the Historical Building as directed by the last General Assembly, and that the already congested newspaper section of the historical department may be speedily relieved.

A strong argument for an early completion of the new building is the overcrowded condition of the vaults of the several departments of state, rendering impossible that thorough classification and filing of State papers which their growing importance suggests. Perhaps the most serious need of the proposed Hall of Archives is the extremely precarious and almost totally inaccessible condition in which the increasingly valuable state papers of the first two decades of Iowa's career are reported to be found. The present unsatisfactory condition of these invaluable papers indicates also the condition in which the papers of the present time will be found a quarter or half century hence, unless provision is now made for their preservation as proposed.

In this connection I would call attention to the recommendation of the Curator of the historical department that the sum of $300,000 be appropriated for the completion of the Historical Building, the appropriation to be used in warrants of $75,000 to be issued in four consecutive years. Wholly agreeing with Curator Aldrich as to the amount necessary to complete the building in conformity to the original design—that design modified somewhat by conclusions drawn from subsequent experience and from recent study of library architecture—permit me to urge the desirability of expediting the completion of the building by a division of the amount asked for into three annual warrants of $100,000 each.

I

Miscellaneous Department—Cataloguing.

The mature growth of the miscellaneous department—6,631 volumes during the last biennial period—has so thoroughly com-

pelled the attention of the cataloguer that the work of classifying and cataloguing the library is still far from complete. The inevitable increase of books by gift and purchase during the coming years, with the sure prospect of a transfer of all the books in the miscellaneous department—except the documents—from the Capitol to the Historical Building, and the consequent blending of the separate card catalogues of the two departments, compel me to urge that the next General Assembly, instead of renewing the appropriation of $2,000, made two years ago, for cataloguing the State Library, shall set apart the sum of $1,000 annually for the classifying and cataloguing of the State Library under the direction of the Library Board.

II

Law Department.

By the consolidation act of 1900 the law department was created as a separate branch of the State Library, an annual appropriation of $2,500 was provided for the expenses of maintaining it, and the assistant to the State Librarian was named as the Curator. The change has proved in all respects satisfactory, giving the Librarian a responsible head to this important department, and providing a fixed sum for its maintenance.

During the past biennial period the literature of the law department has been materially strengthened by the addition of many rare and classic volumes. Most of these have been added at small expense, having been bought chiefly by catalogue of second-hand dealers in England, Canada and the East, and through book auctions in New York and Boston. The Library's collection of the statute laws has been greatly strengthened and those of several of the states have been made complete. A number of the early session laws of the older states of the East are yet to be supplied. A valuable addition to this department is a complete set of reports of the American Bar Association and complete reports of bar associations in several of the states. We now have one of the most valuable collections of such reports to be found in this country. But the most notable addition made within the biennial period is a complete set of the British colonial laws and reports, of which there are said to be not over a dozen sets in the United States. The increasing importance attached to British colonial statutes and decisions since the acquisition of the Philippines and Porto Rico and Hawaii by the United States, and the radical and suggestive nature of many of

the laws enacted by the British colonies must make this rare set of laws and reports ever increasingly valuable.

The demonstrated value of the new card catalogue as used in the miscellaneous department during the past four years, has led to an adoption of the system, with modifications, in the law department. In anticipation of the future complete separation of the two departments, a separate and distinct card catalogue system has been inaugurated for the law books and, so far as the cards have been made, the catalogue has been found to be of great convenience, both to my assistants and to lawyers, law students and the public.

The temporary detail of my assistant, Mrs. Florence A. Russell, as bookkeeper for the consolidated State Library and historical department, rendered necessary through the failure of the new law to provide a bookkeeper, has left the law and miscellaneous departments "short-handed," compelling a retardation of the detail work of the Library, seriously embarrassing the entire force. Mrs. Russell is needed all the time in the law department. Her constant attention to the wants of the bar, and of the law students whom we have always with us, would enable Mr. A. J. Small, curator, to do much more valuable work in the galleries, checking and arranging, and in correspondence relative to adding and completing valuable sets and works which should be in a library of this character. It is my purpose to ask the Library Board to recommend that the General Assembly add a bookkeeper to my present corps of assistants, thus enabling me to relieve the second assistant from the burden put upon her temporarily, a burden heavy and difficult at best, and doubly so to one who is expected to perform her share of the general duty of the library assistants in serving the court, the bar, the legislature and the general public.

I would especially commend the faithfulness and efficiency of the Curator of the law department, Mr. A. J. Small, whose previous training in the law branch of the Library rendered his services doubly valuable. Mr. Small was unanimously elected to the position by the Board at the October meeting in 1900.

III

The Traveling Library Department.

The traveling library department of the State Library has made much progress during the past two years, though seriously hindered by lack of facilities for administration. Along with the

steady growth of this department, both in the number of books at its command, and in the extent and variety of uses made of them, there has also been a large measure of growth in the law and miscellaneous departments—the last named including the fast accumulating public documents both national and state. This increase all along the line means a steady increase not only of correspondence, but also of routine work, in accessioning, stamping, labeling, shelf-listing, cataloguing and shelving new books, and in serving the public after they are shelved. Consequently I have been unable to detail any one of my assistants for the exclusive work of the traveling library without a serious stoppage of work in the law and miscellaneous departments. For several years my first assistant was placed in charge of the traveling libraries. But the work grew so in volume that the alternative was presented of wholly depriving the miscellaneous and law departments of her services or employing outside assistance for the traveling library department. In the emergency, the Library Board empowered the Librarian to engage a traveling library assistant, and this saved that new and promising department from threatened congestion. The Librarian was fortunate in being able to secure the services of a skilled librarian who in her home library had successfully operated the traveling libraries in small communities in her county. Miss Margaret W. Brown, of Chariton, brought to this work a rare combination of zeal, judgment and experience, enabling me to develop a plan measurably held back by inability to handle the details with the force at my command—namely, to make the traveling library flexible, enabling committees, clubs, schools and individuals to borrow only the books they want, instead of being compelled to borrow a fifty-book library in order to obtain a few books especially desired. The special loan branch outlined in my last report, and further developed since, has proven of great advantage to clubs, schools and colleges, also to individual readers and students. But the development of this plan necessitated a change in management, making the single-volume instead of the fifty-volume library the unit of record. This change, with new rules and charging system, prepared by Miss Brown, put upon the new assistant a large amount of detail work which partially prevented her from doing justice to the more resultful labor of suggesting and supplying books called for to fit the program of study clubs and the special wants of individuals. The new departure will compel more

attention to and somewhat larger expenditures for administrative work.

From individual expressions of opinion by the several members of the Board, I am satisfied that they are of one mind in favoring a transfer of the traveling library department to the Iowa Library Commission, and for the following reasons:

Our traveling library system is becoming more and more dependent on the Library Commission for its development, and the Library Commission is finding it increasingly essential as a means to the principal end of its labors, namely, the founding and upbuilding of self-sustaining free public libraries.

The operation of the system is outside the state capital, and is largely among the district and high schools, the colleges, the literary and art clubs and reading circles and the small community libraries. Its purpose is the opposite of that which governs the operations of the three other departments of the State Library. The State Library proper, including the historical department, centralizes books, pictures, curios, etc., where they properly belong, at the state capital; while the traveling library department is successful only as it decentralizes.

The books which make a state library great are solid and scholarly, and more for the representative readers than for the masses; while the books for the traveling library department are largely for young readers and nearly all for less exhaustive study than would satisfy the demand of the scholar or the special student. The members of the Library Board are of the opinion that the members of the Library Commission, and the secretary of the commission acting for them, are in more direct touch with those whom the traveling library should reach than they themselves are, and consequently that better results are likely to be attained by the proposed transfer.

For these reasons chiefly, and for others of perhaps less weight, the members of the State Library Board have expressed themselves as strongly favoring a transfer of the traveling library department of the State Library to the Library Commission.

Conclusion.

Briefly summing up the most urgent needs of the department of which I have the honor to be the executive head, I shall recommend that the Board, through a legislative committee, ask the

next General Assembly, (1) for the aggregate sum of $300,000 for the completion of the Historical Building; (2) that instead of renewing the biennial appropriation for cataloguing the State Library, the General Assembly create the position of cataloguer of the State Library (including historical department); (3) instead of detailing one of the three State Library assistants to keep the books of the several departments of the library, including the numerous accounts of the historical department, and instead of detailing the stenographer of the historical department for work part of the time at the State Library proper, that a combined bookkeeper and stenographer be added to the State Library force at a salary which will command high-grade service for the performance of the large volume of bookkeeping and typewriting steadily increasing with the growth of the several departments over which the State Librarian has charge; and (4) that the traveling library department of the State Library be transferred to the Iowa Library Commission.

Calling attention to the financial statement herewith appended, and to the accompanying lists of books added to the library since my last report; also commending the faithfulness and efficiency of my assistants, Miss Helen M. Lee, Mrs. Florence A. Russell and Miss Mary Rosamond, and the hearty co-operation of Curator Aldrich and his assistants, Misses Whitcomb and Steele, in my efforts to make the consolidation law effective, and thanking the outgoing Governor and the members of the Library Board, of which he is *ex-officio* chairman, for their uniform kindness and courtesy, I am

Respectfully,

JOHNSON BRIGHAM,
State Librarian.

June	30	By expense for night watch		165.00
		Total		$ 399.67

Additions to The General Library, June 30, 1899, to June 30, 1901.

Explanation.

This list is on the same general plan as that published two years ago. The bulletin of 1899 was prepared with the intention of making it a help to the library workers of the state in matters of technical detail. Many gratifying assurances that it has been helpful have come to the library, and the additional labor of preparing something more than a mere author list has been amply justified.

The list of publications of governments and states is now printed separately, not in the classified list as heretofore. Excepted from this list, for the greater convenience of students and specialists, are the geological reports, also other scientific reports and industrial reports by states, also special monographs on various subjects, all of which are included in the class list.

The bulletin has been prepared with even greater care as to detail than its predecessor. The author index is especially strong in full names, since it is designed to serve as a reference book for cataloguers whose reference works are limited in number. The general use of this bulletin by the librarians of the state leads to the conclusion that progress along uniform lines of development is well begun in Iowa

The class list is arranged numerically, according to class number, and the author index is in alphabetical order. The order of subjects in the class list is described in the outline of classification which precedes the class list.

Outline of Classification.

Biography, Collective.
Biography by Subjects, Collective,
Biography, Individual.

000	**General Works.**	**500**	**Natural Science**
010	Bibliography.	510	Mathematics
020	Library economy.	520	Astronomy.
030	General cyclopedias.	530	Physics.
040	General collections.	540	Chemistry.
050	General periodicals.	550	Geology.
060	General societies.	560	Paleontology.
070	Newspapers.	570	Biology.
080	Polygraphy.	580	Botany.
090	Book rarities.	590	Zoölogy.
100	**Philosophy.**	**600**	**Useful Arts.**
110	Metaphysics.	610	Medicine.
120	Special metaphys. topics.	620	Engineering.
130	Mind and body.	630	Agriculture.
140	Philosophical systems.	640	Domestic economy.
150	Psychology.	650	Communication.
160	Logic.	660	Chemical technology.
170	Ethics.	670	Manufactures.
180	Ancient philosophers.	680	Mechanic trades.
190	Modern philosophers.	690	Building.
200	**Religion.**	**700**	**Fine Arts.**

BIENNIAL REPORT

OF THE

STATE LIBRARIAN

TO THE

GOVERNOR OF THE STATE OF IOWA,

JULY 1, 1889.

MRS. MARY H. MILLER,
STATE LIBRARIAN.

PRINTED BY ORDER OF THE GENERAL ASSEMBLY.

DES MOINES:
G. H. RAGSDALE, STATE PRINTER.
1889.

LIBRARIAN'S REPORT.

OFFICE OF THE STATE LIBRARIAN,
DES MOINES, July 1, 1889.

To his Excellency, WILLIAM LARRABEE, *Governor of Iowa:*

SIR—The following biennial report of the State Librarian is respectfully submitted:

The number of volumes at present in the library is 34,324.

Since the last biennial report additions have been made as follows:

By purchase	1,976
By donation and exchange	1,320
Total	3,296

During the last biennial period a catalogue of the library has been completed. In addition, shelf lists of the art room, reference alcove and Iowa department have been prepared, the duplicate room has been arranged and a list of its contents made.

Subscriptions for the English law periodicals, which were discontinued in 1885, have been resumed and missing numbers supplied.

The lists of English Poor Law, Parliamentary, Chancery Practice, House of Lords, Ecclesiastical, Registration Appeals, Irish Circuit, Irish Land Cases, Irish King's Bench and Court of Requests reports have likewise been completed.

A special effort has been made to procure works bearing upon Iowa history or written by Iowa authors.

The Twenty-second General Assembly made the following appropriations for the State Library:

For matting for first floor and gallery	$ 450.00
For tin rollers for maps	100.00
For book elevators	100.00
For five additional tables for gallery rooms	50.00
Five hundred dollars annually, beginning January 1, 1888, to be expended in rebinding old books as needed, and for binding periodicals and pamphlets	1,000.00
Total	$1,700.00

Of this has been expended:

For matting	$ 363.63
For tin rollers	67.00
For book elevator	66.55
For tables	48.00
For binding	863.30
Total	$1,410.48

This leaves $289.52 of the above appropriation unexpended.

There is also a general appropriation of $3,000 per annum to be used in the purchase of books. At the beginning of the last biennial period the Librarian had a balance of $849.89 in this fund. The sum of $171.50 has been realized from the sale of duplicates and fees for copying, thus making the total receipts, inclusive of the biennial appropriation, $7,021.39; of this $4,403.75 has been expended for books, leaving a balance of $2,617.64.

Your attention is especially called to the numerous vacancies in our sets of the session laws of the various States and Territories.

These sets we have received from our sister States through a system of exchange that has long been in vogue. It is not to be wondered at, when the past vicissitudes of the library are considered, that many volumes are missing in our series, only three or four being absolutely complete. As these volumes cannot be obtained through exchange, these gaps, if they are to be filled at all, must be filled by purchase. This should be done as soon as possible, for it is becoming more and more difficult to obtain the earlier laws of other States. By the expenditure of a few hundred dollars at the present time, this library can acquire sets of the statute laws of the various States and Territories, for which libraries not connected with the system of exchange have paid thousands. I deem it important that at least $500 should be appropriated by the next General Assembly for this purpose.

Since the last report from this office, a third case has been added to the Aldrich collection. This collection, under the direction of

the donors, is still rapidly increasing. Of late considerable attention has been given to gathering letters and documents of State interest, and portraits of distinguished Iowa people of territorial and later times. The work having been carried forward to so liberal an extent by Mr. and Mrs. Charles Aldrich, it would seem but just that the State should now make provision for its further increase. The collection has become an object of interest to the thousands of people who yearly visit our beautiful capitol, and has received the most friendly recognition both by the press and the people.

Mr. Aldrich assures the Librarian that especial attention will continue to be given to the collection of memorials pertaining to the soldiers and statesmen of Iowa. For this feature alone the collection is entitled to the fostering care of the State.

I append hereto my financial statement and a list of the books acquired for the Library since the publication of the catalogue.

There will also be filed with this a complete list of additions made to the Library during the biennial period.

MARY H. MILLER,
State Librarian.

MRS. MARY H. MILLER, LIBRARIAN, *in account with State Library —Appropriation.*

BIENNIAL REPORT

OF THE

STATE LIBRARIAN

TO THE

GOVERNOR OF THE STATE OF IOWA,

JULY 1, 1887.

MRS. S. B. MAXWELL,
STATE LIBRARIAN.

PRINTED BY ORDER OF THE GENERAL ASSEMBLY.

DES MOINES:
GEO. E. ROBERTS, STATE PRINTER.
1887.

LIBRARIAN'S REPORT.

OFFICE OF THE STATE LIBRARIAN,
DES MOINES, July 1, 1887.

To His Excellency, WILLIAM LARRABEE, *Governor of Iowa:*

SIR—I have the honor to submit herewith the following report of this department of the public service, for the period beginning July 1, 1885, and ending June 30, 1887.

My last report showed the whole number of books in the library, exclusive of duplicates and pamphlets, to be 28,160. Additions made since are—

By purchase	1,269
By donation and exchange	1,587
Whole number of additions	2,856

Whole nnmber now in the library, 31,016.

The growth and usefulness of the library are understood by those availing themselves of its advantages, and need not be pointed out, but the needs and deficiencies are not so apparent.

According to promise in my last report, the shelf lists of the books in the general library have been completed; a revised list of the law text-books is being made; also a list of the law reports. It now remains to revise the card catalog and prepare it for printing, in which work the librarian should have the continued assistance of experienced help, and as the salary of the first assistant is not sufficient to procure the best help, I respectfully ask that a small appropriation be made to supplement said salary, during the making and printing of the catalog.

As is well known by all who have to do with books, all kinds of bindings deteriorate rapidly in the dry steam-heated air used in most libraries. This is especially true of old bindings. Many of our old books must be rebound within a short time, or be a total loss to the library. As our annual appropriation is not sufficient to keep up

with the times in all departments, I would respectfully recommend that an additional annual appropriation of three hundred dollars be made for rebinding the old books as needed.

A book elevator, spring rollers for the maps—without which they are useless—and an easel or table for the life-size illustrations of Audubon's birds, are needed and economy as well as convenience dictate that the library be supplied with them.

I would call your attention to the limited number of Iowa supreme court reports left to the library, after the regular distribution; eight copies only are left us, six of which go into the sets in the library and other offices, while the State Historical Society receives twenty copies.

I desire to speak of another matter, which, though not directly connected with the library, is relatively so. I refer to the State Historical Society, which should be at the Capitol, or at least a State Historical Society should be in the Capitol, where the two institutions could supplement each other.

I have occasional offers of relics presented to the library for which I have no place, and, consequently, I cannot accept them. The newspapers of the state, which have been so kindly donated by their editors and publishers, and which will be invaluable in the future as historical references, are accumulating beyond the accommodations for them in the library. They would of themselves make a fine nucleus for one department of an historical collection.

Since my last report an additional case of autographs, photographs and steel engravings has been made to the Aldrich collection, which, owing to the indefatigable efforts of the generous donor, is assuming vast proportions. Among the most notable recent gifts are autographs—in some cases letters—and steel engravings of Queen Victoria, George Eliot, G. H. Lewes, E. B. and Robert Browning, Sir Walter Scott, Thackery, Tennyson, Burns, McCaulay, Darwin, Lyell, Huxley, in short an innumerable array of kings, queens, popes, bishops, statesmen, literary celebrities and persons of distinction generally. As constant additions are being received no catalog has yet been made.

Allow me to add one *important need* (omitted above) is strips of matting from door to door and from end to end of the library. To nervous persons and those unaccustomed to studying in public, the tread of the variety of boots and shoes, from the squeaking tenor to

the profound bass, of the constant stream of visitors and sight-seers is, to say the least, very distracting.

I append, as usual, the financial statement and catalog of accessions.

Very respectfully,

MRS. S. B. MAXWELL,
State Librarian.

LIBRARIAN'S REPORT.

OFFICE OF THE STATE LIBRARIAN,
DES MOINES, July 1, 1883.

To HIS EXCELLENCY, BUREN R. SHERMAN, *Governor of Iowa:*

SIR—I have the honor to submit herewith the following report of this department of the public service for the period beginning October 1, 1881, and ending June 30, 1883.

At date of my last report the whole number of books in the library, exclusive of duplicates and pamphlets, was.....		20,468
Additions made since are:		
By purchase.....	1,140	
By donations and exchange.....	946	
Total additions.....	2,086	
Whole number in the library.....		22,554

In accordance with chapter 175, Acts of the Nineteenth General Assembly, the present biennial period has been reduced to twenty-one months, which accounts for the seeming decrease in the number of accessions to our library.

The unexpended balance of the appropriation for the term will be used to pay for books which are ordered, but which, by especial arrangement with dealers, will not be received until after our removal to the new building.

All of our sets of law reports, including the British Colonial, have been completed, with the exception of the East Indian, which as above shown have been ordered. There is also missing from our set of Vermont reports, volume 7, of which I make especial mention here in the hope that it may meet the eye of some librarian or other person who may possibly be able to supply the same. I have made diligent effort to procure it from the authorities of that State, from

their publishers, and from the various publishers and dealers of other States, but have not yet succeeded.

While much attention has been given to the law department it will be noticed by the appended catalog that the general library has not been neglected.

The "Iowa Department," spoken of in my last report, has received a number of valuable accessions with the promise of more to follow; the use of a number of valuable historical manuscripts has been promised the library, whenever the history of the State shall be written.

For the history of the present time we shall have access to the newspapers of the State, a large number of which has been kindly donated by their editors or publishers. Want of room and time has prevented a more general ingathering of our home literature, though a generous response has been made to the call for the same.

A number of interesting and valuable political pamphlets have been donated to the library by Mr. C. D. Collet, of the "Diplomatic Review Company," London, England.

A catalog of books which should be in the various divisions of the general library, has been submitted to the trustees and approved and a special appropriation for their purchase should be made by the General Assembly.

The library has grown to such vast proportions, and is in such constant and popular use, that there should be allowed a special attendant, whose duty it shall be to take the books from the shelves when desired for use by readers, and replace the same when used, and thus keep the books always in order; to see that no book is missing from a set; to show visitors—other than those whose object is to consult the books—through the library, and, when not otherwise engaged, to assist in such clerical duties as may at times be necessary. It seems to me that after the removal to the New Capitol, such extra assistance will be imperatively necessary; the expense thereof will be quite inconsiderable, and I respectfully suggest that an appropriation for such service be made by the General Assembly.

Very respectfully,

MRS. S. B. MAXWELL,
State Librarian.

MRS. S. B. MAXWELL, LIBRARIAN, *In account with State Library—Appropriation and Miscellaneous Fund.*

REPORT

OF THE

STATE LIBRARIAN,

TO THE

THIRTEENTH GENERAL ASSEMBLY

OF THE

STATE OF IOWA.

DES MOINES:
F. M. MILLS, STATE PRINTER.
1870.

[No. 8.]

LIBRARIAN'S REPORT.

IOWA STATE LIBRARY, DES MOINES, Nov. 1, 1869.

GENTLEMEN OF THE SENATE AND HOUSE OF REPRESENTATIVES:

In compliance with Section 704, of the Revision of 1860, I beg leave to submit the following report on the condition of the State Library:

The total number of volumes now in possession of the Library, is 10,961, exclusive of several hundred pamphlets.

For want of space in the Library, 1854 volumes of these are deposited in the warehouse, and 954 volumes tied up and placed on top of the shelves in the library; leaving 8,153 volumes accessible.

The law department has been largely increased during the past two years, under the provisions of chapter 161, of the laws of the Twelfth General Assembly, as well as by exchange with the several States. In consequence of this enlargement, it was thought advisable to extend the shelving into the Judges' consultation room, which has accommodated a considerable number of books. Already, however, the additional room thus secured is nearly exhausted, so that with an accession of about 700 volumes per annum, by exchange with the several States, beside those procured by purchase, and direct exchange of Iowa Reports, before the convening of the next Legislature, additional accommodations will be needed for more than 1,500 volumes.

The miscellaneous department is comparatively small, no additions having been made for several years. The sets of Reviews, in particular, need filling up; the *Edinburgh*, *London Quarterly*, *Quarterly*, and *American Quarterly Reviews*, being complete only to about 1835, and the *North American* to 1852.

The following is a list of books received from various sources from June 17, 1868 to November 1, 1869.

FROM ALABAMA.

Supreme Court Reports, vol. 40	1
Acts, 1868	1

FROM ARKANSAS.

Acts, 1868	1

FROM CALIFORNIA.

Supreme Court Reports, vols. 33, 34, 35	3

REPORT

OF THE

GENERAL LIBRARY
UNIVERSITY OF
MICHIGAN

STATE LIBRARIAN

OF THE

STATE OF IOWA,

FOR THE YEARS 1880 AND 1881.

[*PRINTED BY ORDER OF THE GENERAL ASSEMBLY.*]

DES MOINES:
F. M. MILLS, STATE PRINTER.
1881.

REPORT

OF THE

STATE LIBRARIAN

OF THE

STATE OF IOWA,

FOR THE YEARS 1880 AND 1881.

With the regards of

Mrs. S. B. Maxwell.

State Librarian.

REPORT

OF THE

STATE LIBRARIAN

OF THE

STATE OF IOWA,

FOR THE YEARS 1880 AND 1881.

[PRINTED BY ORDER OF THE GENERAL ASSEMBLY.]

DES MOINES:
F. M. MILLS, STATE PRINTER.
1881.

REPORT.

OFFICE OF THE STATE LIBRARIAN,
DES MOINES, October 1, 1881.

To the Honorable, the General Assembly of the State of Iowa:

THE undersigned has the pleasure to submit herewith the following report of this department of the public service.

At date of my last report the whole number of books in the library, exclusive of pamphlets and duplicates, was		18,157
Additions made since are:		
By purchase	1,225	
By donation and exchange	1,085	
Total additions	2,310	
Whole number in library		20,468

A specialty has been made of Iowa books; viz., those written by Iowa authors; those published by Iowa publishers; and all others relating to Iowa, especially histories. A Utility Scrap-book has been placed upon the librarian's table, in which are filed "scraps" of the history, etc., of Iowa, cut from newspapers.

A portfolio of music by Iowa composers has also been added, by donation of the composers.

The life-size illustrations of Audubon's Birds of America, with easel for holding the same, has been placed in the library; also a smaller easel for the support, while in use, of other illustrated works.

A number of old English, as well as the later British Colonial reports, have been imported and the library now has a nearly complete set of English, as well as of American reports. A case of English law text-books has just been received, but too late to appear in the catalogue contained in this report.

To utilize space, time, and patience, many of the pamphlets have been bound, numbered, and indexed in manuscript.

An agricultural department, including horticulture and domestic animals, has been added. In this connection, I would respectfully suggest that a number of copies of the reports of our State Agricultural Society be given the library for distribution to other libraries. I am informed by Mr. Noyes, librarian of the Brooklyn Mercantile Library, that inquiry is made at his office, almost daily, for the agricultural reports of the Western States, by immigrants and others desiring homes in the West; to such inquirers, Iowa is a sealed book.

The crowded condition of the library has been the burden of library reports (as well as of the librarian) for lo, these many years, and what more can be said! Every available foot of space in the library-room and in the duplicate-room down stairs has been filled by additional shelving.

Most of the congressional documents and files of newspapers have been placed in the duplicate-room; persons desiring to consult them have the pleasure of standing edgewise between shelves and boxes and possibly removing one or two rows from the shelf before finding the desired volume. I have known instances of gentlemen losing their reverence for books through such experience, especially when the thermometer stands at 15° below zero. In the library proper, shelving has been placed upon the tops of the cases and crowded with books, at the risk of ruining the bindings and killing or maiming the person who attempts the dangerous ascent of short ladders and narrow shelves to reach them. Much valuable time is wasted in the handling of books, which can be obviated only by more room. We not only lack space, but a place of security against loss by fire, tornadoes, etc. The destruction of this invaluable collection of books, which may occur any windy day, would be a calamity from which our State would not recover for generations, if ever. In view of the many dangers surrounding the library, the want of room and the extra work and waste of time resulting therefrom, the injury to the books, etc., etc., would it not be well to provide that the library-room in the new capitol be finished at once and the library removed thereto?

Very respectfully,

MRS. S. B. MAXWELL,

State Librarian.

MRS. S. B. MAXWELL, LIBRARIAN, *In account with State Library—Appropriation and Miscellaneous Fund.*

REPORT

OF THE

GENERAL LIBRARY
University of
MICHIGAN

STATE LIBRARIAN

OF THE

STATE OF IOWA.

FOR THE YEARS 1878 AND 1879.

DES MOINES:
F. M. MILLS, STATE PRINTER.
1879.

160414

REPORT

OF THE

STATE LIBRARIAN

OF THE

STATE OF IOWA,

FOR THE YEARS 1878 AND 1879.

DES MOINES:
F. M. MILLS, STATE PRINTER.
1879.

Gen. lib.
1-6-1932

REPORT.

OFFICE OF THE STATE LIBRARIAN,
DES MOINES, October 1, 1879.

To the Honorable, the Legislature of the State of Iowa:

IN accordance with legal requirement, I have the pleasure herewith to present to your honorable body the following report of this department of the public service.

Since July 1, 1878, a quarterly report has been made to the Governor, and will be found on file in his office.

At the date of the last report the whole number of books in the library was		15,836
Additions made since are:		
By purchase	1,201	
By donation and exchange	1,136	
Total additions	2,337	
Whole number in library		18,273

The balance of cash on hand will be used to pay for books already ordered and subscribed for, but which could not be delivered before the close of the fiscal year.

Previous to 1878 the miscellaneous expenses of the library, including expressage and binding, were paid out of the contingent fund; since that time, as will be seen from the financial statement, they have been paid from the library fund, thus reducing the amount of said fund $541.20 in the two years.

In view of the late financial depression it has been thought best by the management of the library to reduce its business to a cash basis,

selling our Supreme Court Reports for cash and paying cash for all purchases, by which arrangement we save time and money.

I would respectfully call your attention to the valuable aid the Geological Report of Iowa would give to the library. I am assured that many, if not all, of the scientific associations of Europe would be glad to give us their publications in exchange for our geological reports. There are now in the hands of Messrs. Mills & Co. 600 "White's Geological Reports of Iowa" which they agree to furnish to the State for the cost of printing and binding. Were they turned over to the library for the purpose of exchange, they would be an invaluable aid in procuring scientific works.

With the rapidly increasing number of volumes, and the necessary cataloguing of the same; the preparation of books for binding; the large and constantly increasing correspondence; the increased number of visitors and the attention they should receive; the examination of catalogues and circulars, and the making of lists for purchase; the time consumed through the want of a good subject catalogue—in directing young students and strangers who wish to consult the general library in their search for "everything you have" on a certain topic; these and a thousand-and-one details known only to librarians, require so much time and labor that at times some duties must be hurried through and others put off "to a more convenient season." I would therefore respectfully request that the librarian be legally authorized to employ, by the advice and consent of the trustees, such clerical help as may be thought necessary to properly discharge the duties of the office.

Very respectfully,

MRS. S. B. MAXWELL,

State Librarian.

REPORT

OF THE

STATE LIBRARIAN,

TO THE

SEVENTEENTH GENERAL ASSEMBLY

OF THE

State of Iowa,

OCTOBER 1, 1877.

Mrs. ADA NORTH,
STATE LIBRARIAN.

DES MOINES:
R. P. CLARKSON, STATE PRINTER.
1877.

REPORT

OF THE

STATE LIBRARIAN,

TO THE

SEVENTEENTH GENERAL ASSEMBLY

OF THE

State of Iowa,

OCTOBER 1, 1877.

MRS. ADA NORTH,
STATE LIBRARIAN.

DES MOINES:
R. P. CLARKSON, STATE PRINTER.
1877.

REPORT OF STATE LIBRARIAN.

IOWA STATE LIBRARY, October 1, 1877.

To the General Assembly of the State of Iowa:

The following biennial report of the State Librarian is respectfully submitted:

At the date of the last report the whole number of books and pamphlets in the library was 14,526. The library has, since that date, been renumbered, and the pamphlets have been excluded from the numerical catalogue, leaving the total number of books.....14,100

The additions since are:

By purchase.....	871	
By donation or exchange.....	865	
Total additions.....	1,736	
Total number now in the library.....		15,836

By sec. 10, ch. 159, laws 1876, public documents, including the reports of the supreme court, were authorized to be sent to the congressional library, and to the governments of the Dominion of Canada and her provinces, and to such other governments as should be found willing to reciprocate. In accordance with this act, we have secured an exchange of laws, journals and documents with Canada and the provinces of Ontario and Quebec, and an exchange of reports with New Zealand.

In response to the proclamation of the governor, of May 11th, 1876, calling attention to the congressional recommendation respecting the celebration of our centennial anniversary, and the publication of historical records and statistics by the several towns and counties of the state, the library has received the following papers:

Appanoose county. Map and statistics of schools.

Burlington, Des Moines county. The centennial in Burlington.

Cass county. History of.

Cass township, Clayton county. Historical sketch.

Clayton county. Centennial history.
Grant township, Lyon county. Centennial sketch.
Grant township, Pocahontas county. History, *with map.*
Jefferson county. Centennial history.
Lyon county. Centennial sketch.
Marcy township, Boone county. Statistics. (*M. S. S.*)
Page county. Historical sketch.
Polk county. Centennial history.
Shenandoah, Page county. History.
State Centre, Marshall county. Historical sketch and statistics.
Story county. Historical sketch.
Tama county. Historical sketch.
Union county. Centennial sketch.
Webster county. Centennial history.
Woodbury county. History.

These histories furnish a valuable record of facts fast fading from memory, and will be of great use to the future historian. It is to be regretted that the list is so brief.

An effort has been made during the past year to secure more complete sets of the early session laws of our several states, and eighty volumes have already been obtained.

Valuable additions have been made to the law department, by the purchase of nearly complete sets of the Canadian reports.

The collection of books of reference in our general library is very complete for a library of this size, and it is probably largely due to this that there has been a considerable increase in the number of those consulting the library.

The financial statement, and the usual catalogue of additions, are hereto appended.

Respectfully,

MRS. ADA NORTH,
State Librarian.

MRS. MARY H. MILLER

MRS. MARY H. MILLER.

It becomes the librarian's sad duty to chronicle the decease of another ex-librarian of the State of Iowa. Mrs. Mary H. Miller was appointed State Librarian by Governor Larrabee, succeeding Mrs. Maxwell, who survived her a few months. Mrs. Miller did not share the usual fate of the State librarian prior to the elimination of the office from "practical politics." Though appointed by a republican, the election of Horace Boies, democrat, to the gubernatorial office did not result in her removal as was anticipated. Mrs. Miller held her office until the inauguration of Governor Jackson when Mrs. Creighton was appointed to succeed her.

Mary H. MacGinitie was born in Clarion county, Pennsylvania, July 24, 1842. She came to Iowa in 1865 and taught in the public schools of Eddyville and Ottumwa. In 1867 she married Lieut. Samuel Newell Miller of the 4th Iowa Cavalry. Her husband died in 1872. After his death she taught for a time in the Des Moines schools, resigning to take the position of State Librarian in 1888. In 1896, sometime after having completed her third term as librarian, she became matron of the Business Women's Home in Des Moines, in which position she so thoroughly demonstrated her fitness for the work that two years later she was appointed by Colonel Horton matron of the Soldiers' Home at Marshalltown. She served in that capacity with honor to herself and credit to the state until failing health compelled her to resign. She died in Des Moines at the home of her sister, Mrs. J. Wilbur Beebe, on the 28th of March, 1904.

Mrs. Miller, though not trained to library work, soon acquired the many details of her duties as State Librarian, and her conscientious, painstaking service did much to strengthen the library in the estimation of legislators, students and the general public. Soon after entering upon library work Mrs. Miller joined the American Library Association and thus placed herself and the library in close touch with the library movement of her time. She took active part in the earlier sessions of the Iowa Library Association, was its first president and

was one of its most influential members. Mrs. Miller had a clear intellectual grasp and good administrative ability. Though devoted to her own church, the Presbyterian, she was broad in her religious views and liberal in her opinions. Her public career was marked by the rare combination of intense energy and excellent judgment. She had many friends throughout the State to whom her memory is precious. Mrs. Miller left no children. Her only child, Frank C. Miller, died in 1896. She was buried beside her husband and son in Eddyville, Iowa.

Captain W. H. Johnston, of Fort Dodge, a member of the Iowa Library Commission and the Nestor of the State Library Association, writing to Miss Winterrowd of Des Moines, thus refers to Mrs. Miller:

"I have vivid recollections of the many pleasant occasions when Mrs. Miller, as State Librarian, was virtually hostess of the librarians of Iowa and of the many occasions afterward when I met her at library meetings in which she still evinced her interest in the work. My last recollection is associated with the library conference in Marshalltown, at which time I called on her at the Soldiers' Home and found her, though very ill, as ever interested in Library work and thoughtful of others rather than herself. Will you please convey to Mrs. Beebe my high appreciation of her sister and of the work done by her in and for the State of Iowa, and assure her that Mrs. Miller will ever hold high place in the hearts of Iowa librarians."

MRS. SARAH B. MAXWELL

MRS. SARA B. MAXWELL.

Still another ex-state Librarian has passed away since the present Librarian's last report was issued. Mrs. Sara B. Maxwell died at the home of her daughter, Mrs. Emil Poerstel, in Pittsburg, Pennsylvania, October 12, 1904. She was born in Columbiana county, Ohio, February 12, 1837, and was consequently sixty-seven years old at the time of her death. In 1863, she removed with her husband, William Maxwell, to Panora, Iowa. Mr. Maxwell served for two years as clerk of the District Court in Guthrie county and was a member of the Fourteenth General Assembly of Iowa. In 1878 occurred a tragedy which saddened Mrs. Maxwell's whole after-life. While in New Mexico, to which Territory he had gone to establish a ranch, Mr. Maxwell and his son were murdered. The details of the tragedy are still wrapped in mystery.

The year after her sad bereavement Mrs. Maxwell was appointed by Governor Gear to the office of State Librarian, succeeding Mrs. Ada North. Though the position was then said to be "in politics" so efficient and successful was the appointee that she remained undisturbed in her office until 1888. Her term of service was marked by conscientious and resultful efforts to raise the standard of the library and to increase its usefulness. During her term she made the first list of books and pamphlets written by Iowa authors, which was part of Iowa's exhibit at the Chicago Exposition in 1893, and has been the basis of subsequent lists.

Mrs. Maxwell was the author of the Centennial history of Guthrie county, published in 1876, also of a useful work entitled Social Forms and usages. In 1888, she was succeeded in office by Mrs. Mary H. Miller, a sketch of whose life appears on a preceding page of this report. In 1897, Mrs. Maxwell was elected

librarian of the Unitarian Theological School in Meadville, Pennsylvania. This position she retained until a short time prior to her death. Two daughters, Mrs. Emil Poerstel and Mrs. Jessie Weaver survive her.

During her term of service as State Librarian, and later as college librarian, Mrs. Maxwell took deep interest in library organizations and whenever possible attended the meetings of the American Library Association. She was one of the pioneers of the Iowa Library Association and an active and influential member of that body.

Mrs. Maxwell brought to her public duties a keenly intelligent and well trained mind and a rare degree of conscientiousness.

LIBRARIAN'S REPORT.

OFFICE OF STATE LIBRARIAN,
DES MOINES, IOWA, OCTOBER 31, 1905.

To the Honorable Albert B. Cummins, Governor of Iowa and President of the Board of Trustees of the Iowa State Library:

SIR: I have the honor to submit for your consideration the thirtieth Biennial Report of the librarian of the Iowa State Library, covering a period included between the thirtieth day of June, 1903, and the first day of July, 1905.

At the close of the twenty-ninth biennial period there were of record books in the State Library proper	77,422
Also, unaccessioned pamplets in the document section	6,124
	83,546

Books Since Last Report.

To this number have been added during the period now closed—To the Miscellaneous Department:

By purchase	4,629
By exchange and gift	2,048
	6,677
Withdrawn	2
Making the new addition	6,675

To the Law Department have been added:

By purchase	1,163
By exchange	687
	1,850
Total in both departments	8,525
These accessions make the total in the State Library proper, (independent of the Historical Department)	92,071
Unaccessioned pamphlets adding during the period	1,171
Making a total of accessioned and unaccessioned books and pamphlets in the State Library proper	93,242
To these should be added total of books and pamphlets of record in the Historical Department, exclusive of newspaper volumes, as per recent report of the Curator	14,182
The Grand Total of the three Departments is	107,424

During the last two years the policy of grouping pamphlets under some one general head, binding them in book form and shelf-listing same has been thoroughly and systematically carried out. The consequence is that hundreds of valuable pamphlets heretofore inaccescible can now be traced at once, by means of the card catalogue, to their places on the shelves; thus greatly facilitating the endeavor of the student of themes and of affairs to find the valuable subject matter included in pamphlet literature and oftentimes not to be found elsewhere. Meantime we are continuing the policy, now fully approved by experience, of placing upon the shelves, with books of their respective classes, the many temporarily valuable pamphlets which come to us through the mails and otherwise, leaving to the future a determination of their relative value. Several librarians in other states have since adopted this method of handling pamphlets, thus readily, and thus far satisfactorily, solving one of the most perplexing problems of library administration.

Recent Purchases.

The accessions of both new and out-of-print books, during the past two years, as shown by the list appended to this report have greatly strengthened the library as a source of information and inspiration. Not a few broken sets have been filled and others have been materially strengthened. The new books have been selected with the utmost care from a study of catalogues and reviews and have been brought together from all the great book markets of the world.

Exchanges with State Institutions, etc.

During the past two years I have inaugurated an extensive system of book, periodical and document exchange with the State University library, the library of the State Historical Society, and the library of the State College of Agriculture and Mechanic Arts. By this system all parties to the exchange have been materially benefited and the reference libraries of the state have been correspondingly strengthened. To illustrate:

The library of the State Historical Society has received on exchange account thirty-six volumes and numbers and has reciprocated by sending to the State Library sixty-six volumes and numbers and will follow these with others at no distant date. To

further illustrate: The State University library is in receipt of fourteen volumes of Poore's Railroad Manual, the price of which is ten dollars a volume. These came to the library, as duplicates, from the Iowa Department of Agriculture. The exchange is not confined to State Institutions. The State Library, with the aid of the Library Commission, has recently sent to the library of the University of Chicago, a number of periodicals and in return is about to receive a long list of valuable documents and works. All these exchanges are effected with no other expense than that of carriage. The Library of Congress is also in our debt for duplicate copies of periodicals and is from time to time paying the debt by meeting our draft on its duplicate list of periodicals.

It is my purpose to co-operate with all institutions having duplicate lists from which we may draw. For, in the purchase of material with which to fill sets in the library—especially at auction sales—it is inevitable that duplicates are acquired. These would be comparatively valueless but for some system of exchange such as has been inaugurated.

Classification of Books in Library.

Separating the unaccessioned pamphlets from the books, the number of books and pamphlets in the library, as shown by a careful verification of the shelf-list, is as follows:

Miscellaneous Department.

(000)	**General Works**—Bibliography, Library Economy, General Cyclopedias, General Collections, General Periodicals, General Society Publications, Book Rarities, etc	7,996
(100)	**Philosophy**—Metaphysics, Philosophical Systems, Psychology, Logic, Ethics, Ancient and Modern Philosophers	696
(200)	**Religion**—Natural Theology, Bible, Devotional and Practical, Homiletic, Church, Institutions, Religious History, Christian Churches and Sects, Non-Christian Religions	2,600
(300)	**Sociology**—Statistics, Political Science, Political Economy, Administration, Associations and Institutions, Education, Commerce, Customs, Costumes, Folk-lore	4,548
(400)	**Philology**—Comparative, English, Other Languages.	186
(500)	**Natural Science**—Mathematics, Astronomy, Physics, Chemistry, Geology, Paleontology, Biology, Botany, Zoology	3,292
(600)	**Useful Arts**—Medicine, Engineering, Agriculture, Domestic Economy, Commerce, Manufactures, Trades, Building	2,514

(700)	**Fine Arts**—Landscape gardening, Architecture, Sculpture, Drawing, Painting, Engraving, Photography, Music, Amusements	1,219	
(800)	**Literature**—American and English, German, French, Italian, Spanish, Latin, Greek, Minor Languages including Poetry, Drama, Fiction, Essays, Oratory, Letters, Humor, Philosophy and History of Literature, Treatises, Collections, Literary periodicals	5,141	
(900)	**History**—Geography and Description, Biography, Ancient History, Modern History,—Europe, Asia, Africa, North America, South America, Oceanica, and Polar Regions	8,630	
	Duplicates not withdrawn and in use	863

Law Department.

Text-books—State Reports, United States Reports, Foreign Reports, Statutes, Laws and Digests, Home and Foreign; Law Periodicals, Literature of the Law, Constitutional Conventions, Trials, etc.....		26,066
Surplus held for exchange.....	3,320	

(The books in this department are presented more in detail in the appended report of the Curator of the Law Department.)

Historical Department.

Books, Periodicals, Documents, Pamphlets, etc.—exclusive of newspapers volumes—as per report of Curator of Historical Department.....	14,182
Total in the three Departments.....	107,424

(Exclusive of duplicates held for exchange and gift.)

Completion of the new Building.

As stated in my last report, the law consolidating the Miscellaneous portion of the State Library with the Historical Department could not be carried out, so far as relates to the actual transfer of all the books in the Miscellaneous Department from the State Library to the west wing of the new building occupied by the Historical Department, owing to want of space in that wing of the new building. Permit me to urge upon the 31st General Assembly, on reassembling in January, 1906, the desirability of giving early attention to the necessity which recent legislation has imposed—and which is emphasized by the growing necessity of a Hall of Archives, and the increasing needs of the Historical Department and of the Miscellaneous and Law Departments as well—namely: an appropriation ample for the speedy completion and furnishing of the new building.

Acknowledgments.

I take pleasure in acknowledging the uniform courtesy which the president and members of the Library Board have accorded me in furthering my plans for the upbuilding of the State Library and the wise counsel and generous aid rendered

me by Curators Aldrich and Small, and by my library assistants, Miss Lee, Mrs. Russell, Miss Rosemond, and Miss Steele.

The Seventh biennial report of the Curator of the Historical Department is to appear, as previous reports of that Department have appeared, under separate cover.

The Second biennial report of the Curator of the Law Department is herewith appended.

I also append herewith a financial statement covering the receipts and expenditures of the several departments during the biennial period; also a list of accessions to the Miscellaneous Department, and a list of accessions to the Law Department, during the last biennial period.

Respectfully submitted,

JOHNSON BRIGHAM,

State Librarian.

Hon. Johnson Brigham,
State Librarian.

DEAR SIR:—We are pleased to report a gratifying increase in the law department, though a few short in the number of volumes purchased compared with the biennial preceding. This may be accounted for in the purchase of quite a few expensive out of print volumes. We have been obliged to decline the offer of several rare editions on account of lack of funds; and I regret that our appropriation is not larger that we might secure these rare and valuable law books which are seldom offered for sale.

Accessions during the Biennial.

Text books	296
State law reports	495
Reporter system	96
United States reports	39
Foreign reports	149
Statutes, laws and digests	194
Foreign laws	81
Periodicals	125
Constitutional convention journals and proceedings	39
Trials	47
Literature of the law	221
Law documents	68
Total	1,850

Of which 1,163 were added by purchase and 687 by gift and exchange.

Number of Volumes in Law Department.

Text books	4,149
State and Territorial law reports	7,752
Reporter system (west and cooperative)	881
United States court reports, including patent cases	859
Foreign law reports, principally English and colonial	3,646
Statutes, laws and digests (states and nation)	4,146
Foreign laws and digests, principally English and colonial	825
Periodicals	2,366
Constitutional convention proceedings and journals	214
Trials	224
Literature of the law	936
Law documents	68
Total	26,066
Surplus held for exchange	3,320

Literature of the Law

Our section of the literature of the law is now past the probation period; it is now in fact one of the most interesting sections in the library, where the lawyer or student may find much of the best of law literature, history and jurisprudence. We have not confined our efforts to any particular line but making it general so as to supply the needs of all.

Cataloguing.

We have continued in the plan outlined in our report of two years ago, though the progress is slow; however we have progressed steadily keeping all the new works up to date and gradually working back into earlier volumes. Perhaps the most satisfactory showing is the practically completing the card index to the table of cases in the Abstracts and Arguments which meant the page by page examination of over eleven hundred volumes and the making of over ten thousand cards. Also, we are making a card index to all the leading articles in the current law periodicals.

Exchanges.

An effort is still being made to get all statutes, laws, law reports, etc., by exchange; quite a good number have been added to this list during the past two years, though in some cases with much difficulty; but by persistant effort we hope to gradually place many of the now purchased volumes to the exchange account.

Binding.

In a library of so many volumes of books bound in sheep which have been in use for so long a term of years, the bindings constantly being broken through use or crumbling from lack of use, it became apparent that a more durable binding should be had, and by recommendation of the book committee we are now adopting buckram in the place of sheep where it is practical and thus far it is proving satisfactory.

Conclusion.

I am under many obligatious to you for generous advice in making my work possible and pleasant; and to my associates in the library I feel grateful for ever lending a helping hand; and especially to Mrs. Florence A. Russell, who does all the cataloguing for the law department and who otherwise renders valuable service to the library. Very respectfully,

A. J. SMALL,
Curator Law Department.

Additions to The General Library, June 30, 1903, to June 30, 1905.

Explanation.

This list is on the same general plan as that published two years ago.

The list of publications of governments and states is now printed separately, not in the classified list as heretofore. Excepted from this list, for the greater convenience of students and specialists, are the geological reports; also other scientific reports and industrial reports by states; also special monographs on various subjects, all of which are included in the class list.

The author index is especially strong in full names since it is designed to serve as a reference book for cataloguers whose reference works are limited in number. The general use of this bulletin by the librarians of the state leads to the conclusion that progress along uniform lines of development and classification is well begun in Iowa.

The class list is arranged numerically, according to class number, and the author index is in alphabetical order. The order of subjects in the class list is described in the outline of classification which precedes the class list.

LIBRARIAN,

MRS. LAURA C. CREIGHTON.

Librarian's Report.

OFFICE OF THE STATE LIBRARIAN,
DES MOINES, July 1, 1895.

To the Honorable Frank D. Jackson, Governor of Iowa:

SIR—I have the honor to submit the following report of the Iowa State Library, for the biennial period beginning July 1, 1893, and ending June 30, 1895. The total number of accessions for the period ending at date, is four thousand three hundred and ninety-three volumes, acquired as follows:

By exchange and donation	1,617
By purchase	2,776
Total number of volumes in the library	49,202

Since the last report there has been expended $10,812.02, and as will be seen by the appended report there has been added much of the various literature that a state library should properly contain. Constant attention has been given to the development of special lines: notably, statute and session laws and judicial decisions; also to historical war data, through regimental histories. Attention has been given to completing sets, and to placing in the library books which it would be difficult to find elsewhere; books on political, social and economic science, and technical books concerning the arts. Being distinctively a reference library, no pains have been spared to make all departments readily available to any person engaged in special research.

Among the reference books added may be noted:

Standard Dictionary.
Century Cyclopædia of Names.
Johnson's Universal Encyclopædia. New edition.
Peabody Institute Library catalogue.
Savage's Genealogical Dictionary of New England.

Furness' Variorium edition of Shakespeare.
Dennis' System of Surgery.
Brehm's Thierleben.
Bartlett's Concordance to Shakespeare.

To the periodical department there have been recently added:

Transactions of the American Philosophical Society.
Transactions of the American Institute of Mining Engineers.
Transactions of the Linnean Society.
Journal of the Chemical Society of London.
Academie Royal des Sciences.
Macmillan's Magazine.
Saturday Review. London.
Temple Bar.
Spectator. London.
Dublin Review.
Bookman.
Lippincott's Magazine.
Poet Lore.
Theatre.
Fraser's Magazine.
Cornhill Magazine.

The aim has been to insure representation of subjects from various points of view and to meet the needs of all classes.

The Iowa Academy of Science has recently been assigned an alcove in the library where its volumes are deposited. The library is indebted to this society for many valuable suggestions as to the scientific books that would be most helpful to the citizens of the state, in the field of higher education and usefulness.

In 1890 the librarian was instructed to assign space on the shelf for the library of the Iowa commandery of the Military Order of the Loyal Legion. This collection is being steadily increased.

There has been a special endeavor on the part of the library to foster a feeling of pride in Iowa literature and to continue the collection of publications of Iowa authors.

A considerable part of each annual appropriation has been expended on the law library in an endeavor to secure late additions of important standard works, and in filling in all necessary publications.

It is desirable to add numerous books to the scientific department but it is not possible to make these needed additions without an increased appropriation. Several thousand

dollars are necessary for this purpose alone. I therefore respectfully recommend that the annual appropriation be increased to such an extent as will enable us to meet these demands.

I take great pleasure in acknowledging the valuable aid and hearty co-operation that has at all times been extended to the library by the Honorable Board of Trustees and the faithful performance of duty by my assistants. I append hereto my financial statement and the catalogue of the accessions to the library for the biennial period. Respectfully submitted,

MRS. LAURA C. CREIGHTON,
State Librarian.

MRS. LAURA C. CREIGHTON, LIBRARIAN, *In account with the State Library Fund.*
